## **Recommendations:-**

- (1) As per Section 4 (1)(a) of the Right to Information Act, 2005, every public authority shall maintain its records duly catalogued and indexed in a manner and the form which facilitates the right to information under this Act and ensure that all records that are appropriate to be computerised are, within a reasonable time and subject to availability of resources, computerised and connected through a network all over the country on different systems so that access to such records is facilitated. To fulfill the above mandatory provision, the Commission recommends that sufficient budgetary provision may be made by the Government of Tamil Nadu to every public authority.
  
- (2) Section 4 (1)(b) of the Right to Information Act, 2005 requires that every public authority should publish 17 items of information suo-moto. It is recommended that reviews should be held periodically at the level of the Heads of Departments to update these information, so that seeking of information through RTI applications will reduce to a larger extent.
