ANNUAL REPORT – 2011

Introduction

The Right to Information Act, 2005 was enacted by the Parliament of India to provide for setting out the practical regime of right to information for citizens to secure access to information under the control of public authorities, in order to promote transparency and accountability in the working of every public authority. This Act received the assent of President of India on the 15th June 2005 and was published in the Gazette of India for general information on the 21st June, 2005. The Right to Information Act, 2005 has made governance citizen – centric and controlled corruption.

Constitution of the Tamil Nadu Information Commission

Consequent upon the enactment of the Right to Information Act, 2005, the Government of Tamil Nadu under the powers vested in Section 15(1) of the Act, has constituted the Tamil Nadu Information Commission consisting of the State Chief Information Commissioner and two State Information Commissioners vide G.O Ms. No. 988, Public (Estt I & Legislation) Department, dated 07.10.2005. Provided also that the salaries, allowances and other conditions of service of the State Chief Information Commissioner and the State Information Commissioners shall not be varied to their disadvantage after their appointment.

Head Quarters of the Tamil Nadu Information Commission

As per the orders of the Government of Tamil Nadu in G.O. Ms. No. 122 Public (Estt I & Legislation) Department dated 02.02.2006, initially the Tamil Nadu Information Commission functioned with its Headquarters in Purasaiwakkam, Chennai. As the accommodation in the above premises was not sufficient, the Headquarters of the Commission was subsequently shifted to Kamadhenu Co-operative Supermarket Building, I Floor, (near Vanavil), Old No. 273, New No. 378, Anna Salai, Teynampet, Chennai – 600 018 on 07.02.2007 with the accommodation of 6240 sq ft, as per the orders in G.O.Ms No.33, Personnel and Administrative Reforms(AR3) Department dated 05.02.2007 . As the said accommodation was also found not sufficient, the Government vide G.O. (1D) No.186 , Personnel and Administrative Reforms (AR3) Department dated 09.12.2010 has permitted the Commission to shift its office to the newly constructed building owned by the Tamil Nadu Slum Clearance Board at Alaiamman Koil Office Complex, Teynampet, Chennai – 600 018, with the

accommodation of 12750 sq-ft. The Office of the Commission is now functioning in the new premises with effect from 10.02.2011.

Administration

The Commission was set up as a three member Commission in the year 2006 and started functioning from a rented premises in Purasaiwakkam and then shifted in 2007 to the first floor of the ware house of a supermarket. The office shifted to a standalone building in Teynampet on 10.02.2011 with all facilities including reverse osmosis protected drinking water supply. Both the Public Information Officers and the appellants are treated with dignity, with a place to sit and not mill around for long times. Elevator is provided to ensure access to the physically challenged. Sufficient number of toilets has been provided. The staff have also been provided with a good working ambience, with no interruption from the outsiders and unauthorized persons. In short, the office has been given a corporate ambience. Equipment, machinery and stationery have been brought into account and entered in registers. Several essential registers were opened and written up-to-date. A mini library with relevant books was established. A full-fledged record room with a qualified record clerk was put in position thereby ensuring the safety of the records as also preventing unauthorized access to the records. A diesel generator has been installed to take care of power disruptions.

The Right to Information Act, 2005 enjoins upon the State Government to provide the State Chief Information Commissioner and the State Information Commissioners with such officers and employees as may be necessary for the efficient performance of their functions under this Act. Training

The Anna Institute of Management is conducting training programmes on RTI Act, 2005 for the Assistant Public Information Officers, Public Information Officers and Appellate Authorities. During the Calendar year 2011, the Anna Institute of Management had conducted 37 training programmes in which 1277 officials participated.

The National Informatics Centre, Chennai has developed some softwares for updation of systems, creation of templates for issue of summons / orders etc in the Tamil Nadu Information Commission. The Staff of the Commission were given two days training through the National Informatics Centre, Chennai for easy handling of new methodology.

Review of implementation of the Act by the Public Authorities

The RTI Act has opened a new vista, but its success will depend upon the implementation of the Act in letter and spirit by the public authorities. It has been noticed by the Tamil Nadu Information Commission that the public authorities are still slow in coming to terms with their duties under the Act. By and large there is an increasing trend in the number of second appeals under Section 19(3) and complaints under Section 18 of the Act received by this Commission. Many of the complaints to the Commission are in the nature that the Public Information Officers have not responded to their applications and even if they responded the reply is inadequate and unsatisfactory. If there is better response from the Public Information Officers and proactive role of the Appellate Authorities while disposing the applications under the RTI Act, the enormous pressure now being experienced by the Information Commission will be reduced to a larger extent. With a view to make the Act more progressive, participatory and meaningful, the State Chief Information Commissioner vide Do letter No. 13373/2011 dated 01.04.2011 had requested the Chief Secretary, Government of Tamil Nadu to give suitable directions to all the Secretaries to Government to undertake a periodical review meeting at least once in a quarter with the Heads of Departments under their administrative Control and have an in depth review of the disposal of applications under RTI Act by the Heads of Departments,

and their sub-ordinate authorities and also a review be taken up at least once in six months at the level of Chief Secretary.

In furtherance of the same, the Commission itself conducted review meetings with the Secretaries to Government of the following departments and also with the Head of Departments under their administrative control during the months of March and April 2011 :-

1. Tamil Development, Religious Endowments and Information Department.
2. School Education Department.
3. Rural Development and Panchayat Raj Department.
4. Co-operation, Food and Consumer Protection Department.
5. Health & Family Welfare Department.
6. Environment & Forests Department.

During the above review meetings it was stressed by the Commission that Section 4 of RTI Act shall be implemented and updated periodically and proper system needs to be developed in the institutions.

Generating copies of orders in Braille Version

A meeting was held by the Commission on 28.11.2011 with the Regional Director (i/c) National Institute for the Visually Handicapped Regional Centre, Poonamallee, Chennai in connection with generating copies of judgments in Braille version as a scope for information and transparency in empowering visually challenged persons. In furtherance of the above meeting, it has been decided that the Tamil Nadu Information Commission will provide the decisions / orders of the Commission in Braille version on a

specific request from Visually challenged persons, in collaboration with the National Institute for the Visually Handicapped Regional Centre, Poonamalle, Chennai – 56.

National Federation of Information Commissions in India (NFICI)

The National Federation of Information Commissions in India has been specially formed to Co-ordinate the activities of all the State Information Commissions and Central Information Commission and exchange their thoughts, ideas and views under the Right to Information Act. The membership to the National Federation of Information Commissions in India is open to all Information Commissions in India and all the members have to pay an admission fee Rs. 5.00 lakhs and Annual Membership fee of Rs. 1.00 lakh. The Government of Tamil Nadu Vide G.O (D) No. 110 Personnel and Administrative Reforms (AR 3) Department dated 09.08.2011 had sanctioned a sum of Rs. 6.00 lakhs towards the admission fee and membership fee for Tamil Nadu Information Commission in the National Federation of Information Commissions in India.

The Chief Information Commissioner, Tamil Nadu Information Commission had participated in the 5th meeting of Board of Governors of National Federation of Information Commissions in India held at New Delhi on 13.10.2011. The Board has appointed the Chief Information Commissioner, Tamil Nadu Information Commission as a member in the Programme Committee. In the Board meeting it was also decided to pursue the scheme of construction of State level Information Commissions buildings to be assisted by Government of India.

Sixth Annual Convention

The Sixth Annual Convention of Central Information Commission was organized on 14th and 15th October, 2011 by the Central Information Commission at New Delhi and it was inaugurated by the Hon'ble Prime Minister of India on 14th October 2011. The Central Information Commission is organizing every year to commemorate the implementation of the RTI Act, 2005. The theme of the Sixth Annual Convention was "Right to Information – Expanding Horizons".

Thiru K.S. Sripathi, State Chief Information Commissioner, Dr (Thiru) R. Perumalsamy and Thiru T. Srinivasan, State Information Commissioners had participated in the above Convention.

The following four sub-themes were discussed during the above Convention :-

- i) Transparency and accountability: With special reference to Public Private Partnership Projects.
- ii) RTI Act : Potential & Efficacy in curbing corruption and grievance redressal.
- iii) Experiences and Prospects of Information Commissions.
- iv) RTI Act, exemption provisions & Second Schedule.

The Following important issues were brought forth by the Sixth Annual Convention:-

1. Need for commitment and responsibility on the part of Special Purpose Ventures / Joint Ventures as well as private sector entities for dissemination of identified information in case of projects taken up in public – private partnership mode;

2. While conceptualizing a Public Private Partnership model for implementation of any project, a greater transparency and clear specifications in respect of obligations of Private Entities as well as Special Purpose Vehicles / Joint Ventures regarding the disclosure of necessary information and their accountabilities, need to be interwoven in the bidding document itself;
3. Each Public Authority dealing with the Private Partnership Projects must disclose the details of such projects along with the details of transfer of assets, revenue / profit sharing agreement etc. and obligations of both parties under section 4 of the RTI Act;
4. There is scope for further enhancement of the quantum as well as the quality of voluntary disclosure. The Public Authorities in our country have still a long way to go in making proactive disclosure of all information that is not covered by the exemption provision of the Right to Information Act.
5. An urgent need to strengthen the information housekeeping with a view to strengthen and improve data management practices through computerization of records and extensive use of ICT in workflows;
6. The question of application of exemption provisions to any particular information becomes relevant and important only after disclosure of all non-exempted information. It is thus very important to publish all information as envisaged under section 4 of the Act in the first instance since provisions of Section 8 cannot be dealt with properly in the absence of effective implementation of provisions of Section 4 of the RTI Act.
7. The first and foremost concern of the RTI Act, which is also the thrust of the Preamble, is disclosure. Hence, disclosure of an information or otherwise, keeping

in view the exemption provisions as well as larger public interest, is a balancing act to be performed by the adjudicatory authority.

8. There is need for capacity building in statutory regime itself; which empowers and enables statutory authorities from within organizations;
9. The potential of the RTI Act in stemming corruption and grievance redressal needs much more obedience to proactive disclosure. Non compliance should be dealt with very seriously.
10. The institutions responsible for implementation of the Act need to be respected and strengthened. New institutions that are born or are yet to be born, may be complementary to the existing institutions dealing in the areas of transparency and anti corruption.

Disposal of Tappals by the Tamil Nadu Information Commission

The total receipt of tappals including the replies received from the Public Authorities during the Calendar year 2011 in the Tamil Nadu Information Commission was 54974 and all these tappals were acted upon. The Tamil Nadu Information Commission had disposed of a total of 20601 cases which included personal enquiries also during the Calendar Year 2011. The Tamil Nadu Information Commission had issued show cause notices for imposing penalty on various Public Information Officers in respect of 707 cases. The Commission had recommended for taking disciplinary action against certain Public Authorities in 12 cases and also imposed a maximum penalty of Rs. 25000/- each on Public Information Officers concerned in 14 cases. The Commission had also awarded compensation to the appellants in 5 cases. The Public Information Officer of the Commission had disposed of 35 petitions during the year 2011.

Work was allocated to different Commissioners to ensure speedy disposal of cases. Annual Reports for the years 2006, 2007, 2008, 2009 and 2010 were sent to the Government. Information under Section 4(1) (b) of the RTI Act has been put on the web. The website is fully functional and has details of updated cause list. The decisions of the Commission are put on the web very regularly. Video Conferencing facility was introduced. File tracking mechanism has been installed which has also helped in reducing pendency. Arrangements have been made to give the orders in Braille forms to the needy. This is the first such arrangement in India.

General

The basic problem of the Commission is lack of adequately trained staff and a large number of vacancies. By a series of training programs all the staff were sent for training in both office management and e-governance. Though they cannot be considered tech savvy a sense of confidence has been given to them in handling e-governance. The Commission now has established a functional web site with all relevant details.

In short, there has been a quiet flow of reform in the functioning of the Tamil Nadu Information Commission.
