## **Introduction**

The Right to Information Act, 2005 is one of the most significant legislations enacted by the Parliament of India. It received the assent of President of India on the 15<sup>th</sup> June 2005 and published in the Gazette of India on the 21<sup>st</sup> June, 2005. The Act fully came into effect on the 12<sup>th</sup> October, 2005.

- (1) As per Section 25(2) of the RTI Act, 2005, each Ministry or Department shall, in relation to the public authorities within their jurisdiction, collect and provide such information to the State Information Commission as is required to prepare the report under this section. Most of the public authorities are sending their reports belatedly which in turn hampers the preparation of the Annual Report in time by the

Commission thereby resulting in delay in placing the Annual Report before the Assembly. It is, therefore, recommended that suitable instructions be issued by the Government that all the public authorities should fulfill their obligations laid under Section 25(2) of the RTI Act, 2005.

- (2) The Commission imposes penalty under Section 20(1) of the RTI Act, 2005, on the Public Information Officers who have not furnished the information or refused to furnish such information within the specified time and also directs the Head of the Department concerned to recover the penalty imposed and remit it to the Government account. A suitable mechanism be evolved by the Government for monitoring the recovery of such penalties without default.
- (3) The Tamil Nadu Information Commission having no building of its own is functioning in the rented buildings since its inception in 2006. Sufficient number of Enquiry Halls are not available and other public utilities are not adequately available. The State Government may take steps for provision of an independent office building of its own in the place where the public will have easy access.
- (4) The budget allocation for Tamil Nadu Information Commission may be brought under "Charged Head" instead of "Voted Head".
